1. Molakalmuru Taluk. 2. Challakere Taluk. 3. Harihar Sub-Taluk.

D. NARASIMHA MURTHY RAO,
District Forest Officer.

ENGINEERING DEPARTMENT

BUREAU OF SANITARY ENGINEERING, BANGALORE.

Abstract Notification dated 24—27*th July* 1936.

The attention of the public is invited to the notification, dated 21st July 1936, calling for tenders for the labour portion of the work of laying and jointing pipe lines and constructing a suction well, 15 diameter and 30' in depth for water supply to Closepet Town, published on pages 1173-1174, Part VI of the *Mysore Gazette*, dated 30th July 1936.

The last date for receipt of tenders is 17th August 1936.

Abstract Notification dated 25—27*th July* 1936.

The attention of the public is invited to the notification, dated 21st July 1936, calling for tenders for the work of making Sanitary Improvements to Railway Central Workshops at Mysore, published on pages 1175-1177, Part VI of the *Mysore Gazette*, dated 30th July 1936.

The last date for receipt of tenders is 17th August 1936.

Notification dated 5th August 1936.

Notice is hereby given that sealed tenders will be received at the Office of the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, up to 1 P.M., on 2nd September 1936, for the work of constructing an office building for the Superintendent, Kolar Gold Fields Water Works at Bethamangala. An approximate estimate of quantities is given below. These quantities are not guaranteed. The work should be completed by the end of December 1936.

2. The plans, detailed estimate and conditions may be seen at the Sanitary Engineer's Office, between the hours of 11 A.M. and 5 P.M. on all office days.

3. Tenders should be submitted on printed forms which may be obtained from the Sanitary Engineer. The tenders should be accompanied by a statement in the form given below, showing the rates at which the different items specified will be executed.

4. Each tender must be accompanied by a deposit of Rs. 200 in cash (no cheques will be accepted) as earnest money, and be superscribed "Tender for the work of constructing an office building for the Superintendent, Kolar Gold Fields Water Works at Bethamangala" in default of which the tenders will be rejected.

5. The final acceptance of the tender will rest with the Sanitary Engineer who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

6. Within eight days of the acceptance of the tender, the successful competitor will be required to execute the usual contract bond, in default of which, his tender will be considered cancelled, and his earnest money will be forfeited.

7. The name of the successful competitor, whose tender has been accepted, will be posted on the Notice Board in the Sanitary Engineer's Office in due course. No enquiries regarding the acceptance or rejection of a tender will receive any reply.

8. On acceptance of one of the tenders, the earnest money on rejected tenders will be returned.

9. Charges on account of scaffolding materials, implements for setting out, barricading, clearing site, supply of water, etc., that may be found necessary during execution will not be paid for separately but should be borne by the contractor.

10. Rates for non-tendered and non-estimated items shall be as per schedule rates of the Department or those fixed by the Sanitary Engineer after working out data with not more than 10 per cent for contractor's profit.

11. In all matters not specifically provided for and in all matters of dispute about rates, quantities, measurements, quality of works, etc., and in all disputes of any kind, the decision of the Director of Health will be final and legally binding.

Abstract estimate of quantities of work to be done for the work of constructing an office building for the Superintendent, Kolar Gold Fields Water Works at Bethamangala.

No.	Particulars	Unit	Quantity
1	Earthwork excavating foundation and filling in basement	C.yd.	58
2	Concrete with stone jelly and chunam mortar for filling foundation	C.ft.	532
3	Burnt size stone in clay for foundation	C.ft.	830
4	Burnt size stone in clay for basement	C.ft.	419
5	Burnt brick in clay for superstructure	C.ft.	1628
6	Burnt stone slabs 6″ thick two line dressed and fixed	S.ft.	452
7	Arch work burnt brick in chunam mortar	C.ft.	25
8	Burnt brick in chunam mortar	C.ft.	488
9	Providing cut stone pillars 9″×9″×8′ including pedastal and capitals	No.	5
10	Rolled steel beams including hoisting and painting, etc., complete with fixing	Cwt.	8.03
